DETAILED ACTION

The finality of the action mailed 6-25-02 has been withdrawn in view of the following restriction requirement. Claims 1-9 and 67-73 are pending in this office action.

Election/Restrictions

Claims 1-9 and 67-72 are generic to a plurality of disclosed patentably distinct species. Due to the numerous variables (e.g. R1, R3, R4, R5, R6, R7, R8, R50, R51, R52, R53, R80, R82, R83, R84, R85, etc.), their voluminous complex meanings, and their many permutations and combinations, a precise listing of inventive groups cannot be made. An illustration of different inventive concepts may be made by reference to the compounds in the Examples of the instant application, as for example the compounds of:

- I. Compound 4,
- II. Compound 6,
- III. Compound 9, etc.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should Applicant traverse on the ground that the species are not patentably distinct, Applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the

Art Unit: 1626

case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species, a generic concept inclusive of the elected species will be identified by the examiner for examination along with the elected species.
